Profile

Experienced Front-end Developer proficient in ReactJS, NextJS, NodeJS, ExpressJS, TypeScript & Web API. Strong problem-solving skills. Expertise in testing & database design.

- **4+** years of experiences in web application design, development and deployment in various platforms and have been playing roles as **Software Engineer**.
- **5** years' experience of problem solving.
- **500+ problems** solved
- Expertise in JavaScript, TypeScript, ReactJS, NodeJS, MongoDB.
- Version control systems including Git

Core Skills

Proficient in a range of programming languages, with experience in developing and maintaining responsive, user-friendly, and visually appealing websites using modern web development frameworks and tools.

❖ Languages & Frameworks:

JavaScript (ES6+), TypeScript, React.js, Next.js, Node.js, Express.js, NestJS, MongoDB, MySQL, GraphQL, Socket.io, REST APIs, JWT, RBAC

❖ Frontend & UI:

Tailwind CSS, Material UI, Ant Design, Bootstrap, SCSS, HTML5, CSS3, Google Maps API, Figma

❖ Tools & Platforms:

Git, GitHub, GitLab, VS Code, DevTools, Heroku, NGINX, Firebase

❖ Other Knowledge:

Data Structures, Algorithms, OOP, Problem Solving (500+ problems solved on platforms like Beecrowd)

Experiences

Cosmos Tech Labs Ltd | SENIOR SOFTWARE ENGINEER

📅 May, 2024 - Present

- Developed modern, responsive, and SEO-optimized websites, enhancing user engagement and load performance across devices.
- Mastered Next.js features, applying system design principles to build scalable and maintainable front-end architectures
- Contributed to multiple successful product launches by delivering reliable, high-quality code and collaborating across cross-functional teams.
- Honed project estimation skills to deliver accurate timelines and improve planning across development cycles.
- Integrated real-time features like **QR code scanning**, **live chat**, and **AWS Chime-based communications**
- Designed scalable front-end architecture and enhanced UX through atomic design and BEM methodology

- Currently learning **Python** and **Django**, and actively working on **AWS deployment**

BJIT GROUP | SOFTWARE ENGINEER

 **March, 2021 – May, 2024**

- Developed high-performance, user-friendly, and SEO-optimized web applications for diverse client needs.
- Engineered reusable frontend and backend components, enhancing development speed and maintainability.
- Transformed UI/UX designs and wireframes into efficient, scalable code using modern frameworks.
- Contributed to feature development and issue resolution within cross-functional teams utilizing JavaScript, TypeScript, ReactJS, NextJS, NodeJS, and ExpressJS.
- Played a key role in launching several high-impact web products.
- Participated in client requirement analysis, technical planning, and implementation of fullstack solutions.

FLYTE SOLUTION | FULL STACK WEB ENGINEER

 **November, 2020 – February, 2021**

- Developed secure, scalable web applications with a focus on performance, maintainability, and data protection.
- Built custom CMS solutions tailored to client-specific requirements, improving operational efficiency and user experience.
- Collaborated with design and backend teams to deliver end-to-end solutions aligned with project goals.
- Actively contributed to system optimization and UI enhancements for better engagement and usability

Education

DAFFODIL INTERNATIONAL UNIVERSITY

 **January, 2017 – April, 2021**

- **BSc in Computer Science & Technology**
 - Member of Computer Programming Club
 - **Assistant General Secretary** of Girls Computer Programming Club

Awards & Certifications

- 🏆 **2nd Runner-Up**, DIU Intra University Girls Programming Contest
- 🏆 **Top 6**, DIU Math Olympiad
- Participate in Takeoff Programming Contest, DIU
- Participate in ICPC Mock
- Participate in National Girls Programming Contest

Strengths

- Strong command of **MERN stack** with extensive experience in **React & Next.js**
- Excellent problem-solving and debugging abilities
- Proficient in **UI/UX design**, wireframing, and turning Figma designs into code
- Effective communication skills and ability to work directly with international clients
- Fast learner with a strong passion for continuous learning and self-improvement
- Strong ability to learn new technology very quickly.
- Strong R&D and Problem-Solving skill and work independently with client.
- Good Communication skill and able to work alone with client directly.
